

Amanda Molde

Full Stack Web Developer

Results-driven full stack web developer **passionate about continuous learning and problem solving**. Learned fundamentals of HTML, CSS, and JavaScript in just 3 months, gaining hands-on experience in web development. **Always asking the WHY** to improve user experience through smart, strategic thinking that anticipates outcomes. **Engineer's mindset:** able to see structure where none is apparent, adept at solving problems under constraints, and able to make considered judgments between alternative ideas.

Feb 2012 - Mar 2016	<h4>Process Engineer</h4> <p><i>AECOM</i></p> <ul style="list-style-type: none">Established understanding of tank vent sizing by training 20 people in the use of a new software system that was required by the clientDesigned 3 natural gas processing facilities by analyzing process design to determine how changes in conditions and operations would affect outcomes

Projects

Writer's Blog

<https://github.com/amandamolde/project-4-django>

- Developed RESTful API back end for full CRUD application
- Utilized: Python | Django | React | PostgreSQL | Reactstrap

e-Commerce Clone

<https://github.com/amandamolde/marketplaceAPI>

<https://github.com/amandamolde/marketplace-admin>

- Designed a RESTful API to serve JSON to the React front end
- Developed an admin inventory management panel on the React front end
- Implemented user authentication using Auth0
- Utilized: Node.js | Express | React | MongoDB | Reactstrap

pastTents

<https://github.com/amandamolde/pastTents>

- Created a campsite review site with authentication using Passport.js
- Utilized: Node.js | Express | MongoDB | Bootstrap
