WORK EXPERIENCE

ProLink Solutions, Englewood, CO

Software company that enables the real estate finance industry to efficiently allocate capital, manage assets, and maintain compliance.

Business Analyst

09/17 – 04/18

- Spearheaded data migration mapping, resulting in a 30% increase in implementation efficiency.
- Researched client UX requirements and transformed them into viable software design for 3 products.
- Collaborated in an agile environment to build features, create user stories, and define requirements.

Quality Assurance Intern

06/17 – 09/17

- Identified and analyzed problems with software application function and display.
- Supplied designers and developers with recommendations on software usability.

Level 3 Communications, Broomfield, CO

Planner

03/16 – 06/17

- Drove sales revenue by supporting a sales team of 25+ people while negotiating with outside vendors.

AECOM, Greenwood Village, CO

Process Engineer

02/12 – 03/16

- Applied engineering principles and techniques to design natural gas treating and processing facilities.

National Fuel Marketing, Centennial, CO

Market Analyst

07/11 – 02/12

- Gathered and assessed data on production, markets, and transportation of crude oil products.
